Hello Everyone,

The Sea King CHSS-2/CH124, the 8th installment in my series on Canadian anti-submarine aircraft, is available for viewing at: <http://jproc.ca/rrp/rrp3/seaking.html>

Deliveries of this helicopter to the Canadian Navy started in 1963. Even though there have been numerous upgrades over the years, the Collins 618T radio still survives to this day. I even have a a photo of the installation taken in 2009!

Previously documented aircraft in the series can be viewed at: <http://jproc.ca/rrp/index.html>
